

# Digi-Pas®

A division of **VENTURA** Group of companies  
Innovative Manufacturing Technology

Professional

## PC-Sync Professional Software

Digital Level

### Software Features

- 

**Single Angle Meter**  
Single-axis angle/levelling measurement in numerical and graphical display in degree, mm/M & In/FT units concurrently.
- 

**Dual Angle Meter**  
Dual-axis angle/levelling measurement simultaneously in numerical and graphical in degree, mm/M & In/FT units concurrently
- 

**Dual Axis Bull's-Eye**  
Dual-axis angle/levelling measurement simultaneously in graphical "Bull's eye", line graph, Numerical in degree, mm/M & In/Ft units.
- 

**Single Angle Graph**  
Single-axis angle/levelling measurement readings in numerical and line graph degree, mm/M & In/Ft.
- 

**Dual Angle Graph**  
Dual-axis angle/levelling measurement readings in numerical and line graph in degree, mm/M & In/Ft.
- 

**VibroMeter**  
Monitoring of low frequency vibration patterns in line graph. User may define several parameters for capturing vibration data.

Product of Singapore

Products tested & calibrated by TÜV SÜD & SGS to comply with :

And Manufactured under ISO Quality Standards:
